

Smart LED Lighting

50W & 60W Solar LED Street Light

User Manual

Dual Function Solar Panel:

- Charge the Built-in Battery by Day
- Photo Cell Sensor for Motion Sensor and Dusk to Dawn operation

Integrated Motion Sensor:

- Sense Body Motion and Triggers Light
- Re-Trigger Light when Body in Motion

Mode "A": Motion Sensor Mode

Light turns On at 100% when Motion is Detected, and Dim down to 30% after 20 Seconds without Motion

Mode "B": Dusk to Dawn Mode

Light turns On at Dusk and Turns Off at Dawn (sensed by the Solar Panel).

Operation Modes "A" Motion Sensor or "B" Dusk to Dawn are set at the Factory with the Default as Mode "A" Motion Sensor Mode. Operation Modes and set up can be programmed by a Remote Control, available on request.
